KYLE BUTLER

FRONT-END ENGINEER & SHOPIFY DEVELOPER

I am a front-end web developer who specializes in building advanced Shopify e-commerce stores using JavaScript Frameworks, Liquid, CSS, and HTML

2019

SPIEGEL DESIGN GROUP

Front-End Engineer

Directly contributed to the launch of new web-based stores for high-profile clients such as Netflix, Peet's Coffee, Kim Kardashian (SKIMS), Selena Gomez (Rare Beauty), Jeffree Star, and more.
Also provided ongoing support for many of SDG's sites including new feature requests, SEO, ADA, and bug fixes.

2018

EZ-AD TV

Full-Stack Web Developer

Responsible for on-going support and development of the administrative website and databases, which was also used by Ace Hardware and True Value locations nationwide.

2016

NEWHALL REFINERY

Before web development, I worked in the restaurant industry, specifically as a Bartender & Server at a local gastropub
